Skills

- **Languages & Frameworks**: *Java (Android, Spring Boot), Angular, Swift, C++, C# .NET*
- **Development Environments**: *IntelliJ, SqlDeveloper, Android Studio, Xcode*
- **Developer/Build Tools**: *Maven, Gradle, Azure DevOps, Azure Pipelines, Git, Node.js, Apache Kafka, Adobe Campaign Client*
- *Databases*: Oracle, PostgreSQL, Redis

Professional Experience

Lead Software Engineer | General Motors *(May 2021 - Present)*

- Assigned as an alternate Application Owner of our Global Profile Management Service that is currently managing 42 million customer profiles.

- Knowledge and experience in CCPA and GDPR data privacy compliance, and incident management to satisfy all current service level agreements.

- Participated in architectural discussions regarding the integration of our Global Profile Management Service and its' replacement of various legacy systems.

- Led an effort to standardize regional code and improve code reuse by 35%, which had a substantial effect on onboarding new regions with a simpler codebase.

- Designed and developed a data migration utility which migrated approximately 300,000 South Korean profiles to our Global Profile Management Service platform.

- Developed a utility application to automatically generate internationalization files for an Angular project, ultimately reducing wasted development time in hours for the project by 17%.

- Experience in driving production deployments of microservices and web applications through Azure Pipelines, as well as managing application secrets through HashiCorp Vault.

- Coordinated an effort to localize a web application written in Angular between three scrum teams. I onboarded the other two teams and performed code reviews for all three teams (16 total individuals) during this project.

Certifications

- **SAFe® 5 DevOps Practitioner**, Scaled Agile Inc, Expires Nov. 04, 2024
- **SAFe® 5 Practitioner**, Scaled Agile Inc, Expires Oct. 19, 2024

Education

Arizona State University, BS (Computer Science), Magna Cum Laude | *(Graduated May 2021)*
Estrella Mountain Community College, AS (Computer Science)
